The Green Rust (Version 2)

Edgar Wallace, perhaps best known for creating King Kong, wrote dozens of novels. The Green Rust, his twelfth crime novel, is one of three books he published in 1919. It begins at the English home of the severely ill American millionaire, John Millinborn. With him are his best friend, Kitson, and a local doctor, the Dutch (or is he?) van Heerden. He is murdered in the first chapter, having just left his fortune to his niece, Oliva, whom he has never met. Before he dies, he asks Kitson to find and watch over Oliva.
